Chemistry

All chemistry classes, including laboratories and recitation sections, meet from the first day of classes. Students enrolled in chemistry classes must attend the first scheduled class. Students on the class roll who do not attend the first scheduled class may be dropped and replaced with students waiting to add the class.

English

ENGL 101 Writing and Rhetoric Workshop I is prerequisite to all 200-level English courses; one lower-division literature survey class (ENGL 201 – 291 or equivalent) is prerequisite to all 300- and 400-level English courses. Students must have 24 credits before enrolling in ENGL 200 Writing and Rhetoric Workshop II. ENGL 200 is a prerequisite for all upper-level writing courses (ENGL 303, 304, 305, etc).

Mathematics and Applied Mathematics

Any student requiring a mathematics course before enrolling in a calculus, statistics or computer science course should note the following: If you have not taken the Mathematics Placement Test, do not have current STAR or NSO Placement and have not taken the prerequisite for the course you need, you must take the Mathematics Placement Test before enrolling in mathematical science courses. Make sure you know which courses are needed for your major. Both the Department of Mathematics and Applied Mathematics and your adviser can help you with the possible choices.

For those preparing for, and not placing into, calculus (MATH 200), MATH 151 Precalculus Mathematics is the appropriate prerequisite course. For those preparing for, and not placing into, statistics (STAT 208 or STAT 210), MATH 131 or MATH 141 is the appropriate prerequisite, though any higher numbered MATH course will serve as well; it is important that you satisfy any additional mathematics requirements of your department as well as preparing for your statistics course. (For more information about the Mathematics Placement Test or college requirements, please visit www.math.vcu.edu)

Special note for summer courses. The noncredit MATH 001 Elementary Algebra course is available only during the summer session, and will not be offered for fall 2007. For students who have taken the placement test and placed into MATH 001, we also offer special sections of MATH 131 in which you may enroll with permission. For permission to enroll in one of these special sections, please go to the Math Lab in Oliver PH, Room 3013.

Special note for spring 2007 courses. Section 003 of MATH 201 is restricted to biology or mathematics majors and will focus on applications related to the life sciences.

STAT 208 HONORS: STATISTICAL THINKING (3)

Statistical Sciences

Students requiring statistics courses for their majors should check with their departments/advisers regarding which courses are appropriate. Some departments require STAT 210, some require STAT 208 and some recommend (but do not require) one or the other. Note that the prerequisite for either course is a satisfactory score on the Mathematics Placement Test or completion of MATH 131 or a higher level math course. Transfer students can demonstrate accepted transfer credit for a college algebra (or higher level) course as a prerequisite.

Students may receive credit toward graduation for only one of STAT 208, 210, 212 or 312.

School of Business

Eligibility for enrollment in most upper-division School of Business courses (300-400 levels) is restricted to juniors, seniors, graduate students and special students who have completed baccalaureate degrees. Students without these qualifications may enroll only in the following upper-division accounting (ACCT) course, provided any course prerequisites are met: ACCT 305 Tax Planning for Individuals. Before registering, please refer to the current university bulletin for course prerequisites or course restrictions.

Finance, Insurance and Real Estate

Eligibility for enrollment in most upper-division School of Business courses (300-400 levels) is restricted to juniors, seniors, graduate students and special students who have completed baccalaureate degrees. Students without these qualifications may enroll in the following upper-division finance, insurance and real estate (FIRE) courses, provided any course prerequisites are met: FIRE 315 Personal Financial Planning; FIRE 316 Principles of Real Estate; FIRE 333 Risk and Insurance; FIRE 428 Employee Benefit Planning; FIRE 444 Occupational Safety, Health and Security. Before registering, please refer to the current university bulletin for course prerequisites or course restrictions.

### Management

Eligibility for enrollment in most upper-division School of Business courses (300-400 levels) is restricted to juniors, seniors, graduate students and special students who have completed baccalaureate degrees. Students without these qualifications may enroll only in the following upper-division management (MGMT) courses, provided any course prerequisites are met: MGMT 301-302 Business Statistics and MGMT 421 Small Business Management. Before registering, please refer to the current university bulletin for course prerequisites or course restrictions.

**Note:** The above table is a screenshot of the university course catalog, listing courses related to Epidemiology and Community Health and Human Genetics with their respective codes, titles, credits, times, days, and locations. Each course is detailed with specific times and days, indicating the schedule for each class. The catalog provides a comprehensive overview of course offerings within these disciplines, ensuring students can make informed decisions about their academic paths.

The Center for the Study of Biological Complexity within VCU Life Sciences invites students with interests in biology or the health sciences, chemistry, computer science or math, and an aptitude for blending studies of molecular biology and computer science, to join VCU’s bioinformatics program. We offer an undergraduate bioinformatics major leading to a Bachelor of Science degree, and a choice of master’s programs, including a traditional thesis degree and nontraditional professional science master’s, and an accelerated five-year combined bachelor’s to master’s program. Each program offers three bioinformatics specialization tracks — biology/genomics, computational science and quantitative/statistics. Students can find descriptions of the bioinformatics programs on the CSBC Web site at www.vcu.edu/csbc/education.html.

Full course descriptions can be found online using the VCU course database at www.pubinfo.vcu.edu/vcucourses.
